THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, SUNDAY, JULY 3, 1870. | VOLUME III--NUMBER 12

Evening Edition.

Atlanta, Georgia, ... July 2, 1870.

For ... interesting matter, see fourth page.

Government patronage given to ... opposition is called "grease" in these ...

☞ Political dirt-eaters are greedy for the "greasy" filthy lucre thrown to them by ——.

☞ The voice of an outraged people is more terrible to a guilty statesman than an army with banners.

☞ The faith of the masses in Massachusetts, and other New England States, in the equality of the races is being shaken by the recent importation of Chinese.

☞ The signs in the political horizon distinctly indicate that President Grant is preparing to build up a third party, whose mission will be to re-elect him to the Presidency in 1872.

☞ Rich people at the North are spending the profits they make on the labor of others in Europe. They are importing Chinese that their profits may be the greater. The working men are complaining.

☞ Queen Isabella, who was driven from the throne of Spain two years ago, has recently solemnly abdicated. Perhaps her son, the Prince of Asturias, may be elected to succeed her.

☞ The West Virginia Republican State Convention, which met at Parkersburg last week, unanimously re-nominated Governor Stevenson. In a dozen resolutions passed, neither Grant's name nor his administration was mentioned.

☞ There are intelligent and aged citizens in Georgia, who doubt the existence of the wicked plot of Governor Bullock and his faction to cheat Congress and to steal away the liberties of the people of Georgia by "prolonging his term of office, and that of the present General Assembly, beyond next fall. Awake, ye sleepers! It is even so.

☞ One Charles Dickinson, says the New York Sun, recently recovered fifty dollars from Thomas & Talbot, newspaper and magazine publishers, of Boston, the value of manuscripts which they declined to publish, and, after retaining for a time, destroyed.

☞ Expediency has, for the last ... years, been too much in fashion among politicians. The people are tired of it. The principles upon which the Constitution of our fathers was based are the only substances with which to test genuine patriotism. Only by a strict observance of them can the liberties of the people be preserved.

☞ There are members of the present General Assembly who prefer to hold on to their offices for two years beyond the period for which they were elected being respected by their neighbors. Georgians, of every county and every part in the State, ask your representatives if they will vote for Governor Bullock's position to prevent an election the coming ...

Lightning and Earthquake.

There have been more deaths from lightning-stroke in the last two months than it is usual to record in years. But the other day, near Nashville, Tennessee, two mules, hitched to a wagon, were killed by lightning, the driver being only momentarily stunned. Several times, in the last two weeks, thunderbolts have burst comfortably near the inhabitants of Atlanta. Several flashes of lightning, which this writer observed, were of a diffuse character, and seemed to spread over a surface of the earth, proceeding from below upwards, thus indicating a discharge of electricity from the earth into the atmosphere, instead of from the clouds towards the earth. May not the frequent deaths of late from lightning be due to the discharge of telluric, instead of atmospheric electricity? Against the fatal effects of the former, lightning-rods and tall objects on the surface of the earth afford no protection, if an individual happens to be over the point of discharge of the fluid.

In connection with the phenomena above referred to, the report of a slight shock of an earthquake at New York on Sunday, the 25th ultimo, is worthy of note. If, as contended by some, what is known as the zone of earthquakes, has been perceptibly tending northward and westward for the last fifteen years, may not the cause which operate to produce earthquakes contribute to the disturbance of the electric equilibrium of the earth that has been manifestly so frequent of late? Science is yet greatly at fault in regard to many meteorological phenomena. Theories professing to explain them are too often found upon conjectures, and not upon facts.

North Georgia and her Importance.

CALHOUN, GA., June ?, 1870.

Editors Constitution: The recent developments made by our agricultural community in adapting their lands to the peculiar and proper culture of clover and grasses, prove beyond question the adoption of those ideas which lead not only the enhancement of the value of our lands, but to the great moral and pecuniary benefits resulting from an adaptation to nature's design. Mechanical agencies and manufactories of every conceivable character and description are constantly springing up, attesting to the great ... and recuperative energies of the people of Northern Georgia. I was ... gratified upon a recent visit to see the abundant prospect there is for the necessaries of life. The wheat crop, I learn, ... more promising than ever before in the ... of the State. If no fatality ... the corn crop, an abundant supply may be expected.

I was astonished, while at Dalton to note the rapid advances which are being made in the building up of that city. ... completion of the Selma, Rome and Dalton ... has added and will add ... to the interests of Dalton, while ... the ... railroads, must of ... a place of considerable importance. [illegible] ... Professor J. D. Collins, a gentleman of ... scholastic attainments and unim-

peachable integrity, is laying the foundation for a female college at Dalton, of which he will be President. From his known ability and experience, there can be but little, if any doubt of his most complete success. Large preparations are going forward at Dalton for a fair to be held in that city on the 8th day of October next. The managers being men of energy, enterprise and capital, nothing will intervene to prevent the completion of their designs.

Calhoun is doing considerable business in the trading line. Lands near here, and in fact throughout the county, are rapidly increasing in value, and those wishing settlements in this section should not defer; but now is the accepted time—now the day of lowest prices. B. M. T.

Georgia News

Pike county has been visited by a severe hail-storm.

W. A. Huff is the President of the Roff Boat Club of Macon.

Grass is making rapid strides in Newton county.

The guard house lot at Macon is filled with dogs taken up for roaming at large.

Savannah shipped last Thursday one hundred and forty mocking birds to New York.

The will of the late Edward Padelford, of Savannah, will require $7,500 worth of stamps.

All the prisoners confined in Troup county jail, except one charged with murder, escaped on Monday night last.

August Eder, a "15th amendment" of sixty-five summers, was married on the streets of Newnan.

Nat. Tagle, of Meriwether county, reaped eighty-six bushels of wheat from two and a half acres, and on one select acre forty-two bushels.

A dog belonging to Mr. Kramer, of Newnan, is playing the *role* of a calf, and has become an expert milkist. Mr. Kramer don't wish to divide milk with him, and consequently another bark is wrecked.

As an evidence of the benefits of printer's ink the Dawson Journal cites the fact that the editors were out of eggs and spring chickens. Now they are wholesale dealers.

Ben. Butler, 15th amendment, has been sentenced by Judge Gibson, of Augusta, to four years' labor for Grant, Alexander & Co., for outraging a colored child.

The funeral sermon of Mrs. M. J. Cofer will be preached at Fellowship Church, in Butts county, on the second Sunday (the 10th) in July, by the Rev. W. P. Harrison, D. D.

Byth Barlow, who was sentenced to be hanged on the 1st July, has been respited by the Governor until the 28th July. The alleged grounds for the respite is that the prisoner is not prepared to meet his God.

An assessment of twenty-five per cent. on the capital stock of the Cartersville and Van Wert Railroad has been ordered, payable before the 23d day of July, at the secretary's office.

Colonel Doyal is considered a corpulent man by nearly everybody. The Griffin Georgian was of that opinion until it saw him and Colonel T. M. Acton standing side by side. Colonel Doyal's face was as sharp as a hatchet.

James Fitzpatrick denies the report that he has been bribed to stave off an election in Macon, and says that he cannot be bought or bribed, nor influenced against his conviction of right, on any consideration, here or elsewhere.

W. E. Jackson has been re-elected President of the Augusta Factory, and Messrs. Edward Thomas, J. B. Cumming and T. G. Barrett, Directors. The report of the year shows gross earnings $175,380 22; expenses $47,600 48; net earnings $127,779 73; surplus profits $233,295 33.

Mrs. Henry Coppege died in Griffin, on the 30th ultimo, from the effects of an internal cancerал affection. She had undergone a very difficult surgical operation the previous day; but her system was too far gone, and the disease had made too great progress, to promise much hope of success.

At Clinch Superior Court, three 15th amendments were found guilty of an assault with intent to murder Captain F. M. Jackson, and sentenced the two principal criminals to the penitentiary for three years, and the third for two.

Mr. Thomas M. Cook, senior, died in Valdosta, on the morning of the 23d of June, aged about sixty. He was born in Milledgeville, and was for a long time employed upon the Recorder in that town, and was one of the oldest printers in the State. He held the office of postmaster of Milledgeville for fifteen years.

The Atlanta Convocation of the Protestant Episcopal Church, Diocese of Georgia, will assemble at LaGrange on Wednesday, July 27th; Rev. W. C. Williams, of St. Peter's Church, Rome, Dean, presiding. The District Conference for the LaGrange District will be held by Bishop Pierce at Grantville, commencing on the 20th instant.

George S. Bailey, living within eight miles of La Grange, guessed that his wheat crop would turn out from eighty to one hundred bushels, and could hardly believe his own eyes when he saw Messrs. McGee & Jones, proprietors of a Russell Thresh, measure up two hundred and twenty-six bushels. Rev. D. W. Howell made sixty-six and a half bushels on one acre and a half, an average of forty-four and a half bushels per acre. No fertilizer used but cotton seed.

Henry Slaton, of Wilkes county, has a natural curiosity in the shape of an ear of corn, with perfectly formed grains of wheat on the smaller end. The corn is of the kind called six weeks corn, and was planted in the neighborhood of a wheat patch. Its larger end is covered with grains of corn, and perfectly formed; the smaller portion of the cob has alternate rows of corn and wheat, while on the extremity is placed a perfectly formed head of wheat.

Mr. W. B. Harris, deputy sheriff of Houston county, has been arrested by the military authorities and brought to Atlanta for trial. Mr. H. states the causes that led to the arrest to be as follows: He had arrested a negro under a warrant issued at Marshallville; on conveying his prisoner to that point, not being ready for trial, the authorities refused to take charge of him. Instead of taking his prisoner to Perry, the county site of Houston, for safekeeping, he was carried to Oglethorpe, Macon county. On finding that the jail at Oglethorpe had been burned, Mr. H. left the negro in charge of a friend in the county, and returned to Fort Valley, promising to return the next day with the negro's clothes. On going to the man's residence, in Mr. J. R. Griffin's quarters, Mr. H. found his prisoner—he having escaped and returned from Macon county during the night of the day on which he was left there. Mr. H. says the charge against him is false imprisonment, or imprisonment on a farm.

DULL.—On account of the dullness of business, twelve freight conductors on the Nashville and Chattanooga railroad were suspended Wednesday, until better times. A large number of brakemen were suspended on the same account.—*Chattanooga Times.*

☞ The Wilmington, North Carolina, Life Insurance Company has adopted the wise plan of loaning its money at a low rate of interest to stock and policy holders.

☞ Governor Scott, of South Carolina, has accepted the Columbia Rifles, a white company lately organized as part of the State militia.

☞ An exchange says that one of the latest fashions among the ladies is round hats, three stories high, with a cupola and a flag at half-mast.

☞ The Paris Kentuckian reports a sale of eighty-five two-year old mules at $182 50 per head.

Washington News.

WASHINGTON, July 2.—The Senate last night restored the income tax by fixing the rate at two and a half per cent., to continue for two years longer, with two thousand dollars to be exempted. This action leaves the matter in such shape that in the disagreement between the two Houses, the Conference Committee will be obliged to retain the tax, although the rate has to be fixed at a different figure.

The Senate is discussing naturalization papers.

MEADEVILLE, PA., July 2.—The Odd Fellows of Northwest Pennsylvania will have a grand celebration here on the 4th of July. Addresses will be made by Colfax and Past Grand Master J. W. Stokes.

CHINESE.—A dispatch has been received from Hickman, Kentucky, saying that five hundred Chinese were there, bound for Chattanooga. They will probably be here Saturday.—*Chattanooga Times.*

☞ The project of a ship canal across Cape Cod is agitated. Bostonians think it an enterprise only second in importance to the Suez Canal. It would shorten the distance between the universe and its hub several miles.

B. A. FAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first symptoms of worms; for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

THE WORLD'S WONDER.

DR. ABBETT'S ANTI-DYSPEPTIC

—OR—

LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,

Dyspepsia, Sick Headache,

Sourness of the Stomach,

Loss of Appetite,

Lowliness of Spirits, Colic,

Costiveness, Fever, Ague,

Billious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., DEC. 3, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.

MESSRS. CRAWFORD & WALKER: Gentlemen—I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain, Yours, truly, A. K. KENDRICK.

LIPPMAN'S

GREAT

GERMAN BITTERS,

TONIC, INVIGORANT,

—AND—

PALATABLE STIMULANT.

BY far the best and purest preparation in the world for Dyspepsia, Loss of Appetite, Liver Complaint; a sure preventive for Fever and Ague, Billious, Remittent and Intermittent Fevers.

LIPMANN'S

Great German Bitters,

Are a Medicinal Cordial, possessing powerful alterative, anti-bilious and invigorating properties, that can be taken by old or young, male or female, with beneficial results.

FOR FEMALES,

LIPPMAN'S BITTERS are invaluable. They build up the system, bring health and bloom to the cheek of the invalids. As a remedy for nervous wakefulness, to which females are especially subject, they are fast superseding all other stimulants.

LIPPMAN'S

Great German Bitters,

Are a Cordial for the aged, and a sure protection against malarious diseases. Persons living in damp and malarious climates will find these Bitters a valuable remedy; a small dose taken occasionally, will prevent many day's and, perhaps week's of sickness.

No license at all necessary to sell these Bitters.

SAVANNAH, GA., March 16, 1870.

MESSRS. JACOB LIPPMAN & BRO., Savannah, Ga.:

GENTS: I have before me your esteemed letter of the 14th instant, containing various documents relative to your "German Bitters." After a careful examination, I must confess that your Bitters is really what you represent it to be, an old German recipe of Dr. Mitscherlich, of Berlin, Prussia. It will, no doubt, be excellent for Dyspepsia, general debility and nervous diseases, and it is a good preventive of Chills and Fevers. I find it to be the most delightful and pleasant stomachic.

I remain, yours truly,
[Signed] AUG. P. WETTER.

OFFICIAL JOURNAL OF THE CITY.

THE LARGEST CITY, COUNTY AND STATE CIRCULATION.

DEFIES REFUTATION.

BY W. A. HEMPHILL & CO.

I. W. AVERY, Editor.

Morning Edition.

Atlanta, Georgia, July 3, 1870.

☞ The natural allies of the Northwest are the Southern States.

☞ On the 30th ultimo, the East Tennessee and Virginia Railroad paid to the Comptroller of Tennessee $4,117,761 10 in bonds of that State. This wipes out the whole of its indebtedness to the State.

Within the last week the debt of Tennessee has been reduced more than five and a half millions of dollars.

☞ The Memphis papers contain full particulars of the duel beween two young lawyers named Phelan and Brizolara, in which the latter was shot through the heart. They fought with navy sixes at the distance of fifteen paces. It was agreed that, after they began firing, each was to maintain his position and continue firing until all the barrels were emptied, or until either party fell. Brizolara fell at the second shot of Phelan's pistol. The wounded man's life is not despaired of by his surgeon. The affair grew out of politics. Both parties are Democrats.

The Railroads—A Plea in Behalf of the People.

The numerous railroads which, in the fall, spring and winter, derive large profits from the transportation of Southern produce and supplies for the Southern people are earnestly appealed to to consider favorably the policy of reducing the tariff of charges for passengers to three cents a mile until the first day of November next.

The considerations which urge this are: the great scarcity of money in the planting districts at this season of the year, the necessity on the score of health, and the fact that the very people who would be benefitted by the proposed change in the tariff are the principal customers of the railroads to which this appeal is made.

The companies may reply that they issue thousand mile and commutation tickets at the rate of three cents a mile; but a vast majority of those in whose behalf we plead do not wish to travel as many as a thousand miles, nor have many of them enough money at one time to buy commutation tickets, if necessity or pleasure-seeking induces them to travel.

In behalf of the people we make this appeal to all the railroad officials in Georgia, Tennessee, South Carolina, Alabama and Virginia. We believe they will reap profit by complying with the suggestion made, while, at the same time, they benefit their chief customers.

The attention of the members of the press is respectfully called to the above. If they approve of it, we know they will confer substantial benefit upon the people, who are now cramped for means on which to travel, by commenting upon it favorably.

Mercer University.

Yesterday we gave facts indicating what some of the cities of Georgia are bidding for the location of Mercer University, which is to be removed from Penfield, where it has been in operation for thirty years.

It is evident that the citizens of Atlanta must arouse from their apparent indifference in regard to securing the location of this institution in our city. They can not afford to permit the opportunity to slip by.

Having invested largely in Oglethorpe College is rather an argument in favor of securing Mercer than against it. We started out to make Atlanta a great educational center when we invested in the former institution. Shall we now say to the world we give up the contest? We have one institution of learning and are content; we give up our prestige for progress in a branch of enterprise of the first importance in the building of a great city.

No great city can claim to be an education centre that can boast only of one institution. Competition, or rather the generous rivalry which always springs up between institutions of learning in close vicinity, enhances patronage, besides increasing the intrinsic merits of each rival.

If every denomination or sect in the land could be induced to locate an institution of learning here, it would be all the better.

The natural advantages of climate, salubrity, centralization of location and facility of access, point strongly to Atlanta as the first choice for the location of Mercer University.

It is feared that our citizens are relying too much upon these considerations to win the prize. If they trust to them alone, we are satisfied they will be disappointed.

Industrial Schools for Females.

In conversation with a Georgia lady who is heroically fighting the battle of life, our attention was forcibly called to the importance of the establishment of industrial schools for females, in which they could be taught various useful arts suited to their sex, whereby they may be able to diversify their pursuits and earn an independent livelihood.

On this day of rest, perhaps no more holy duty can be performed than to plead the cause of patient, sorrowing women, many of whom in our city, as well as elsewhere, are now, even now, in utter despair of earning an honest livelihood, or are suffering the tortures of anxiety on account of the prospect ahead of them, in the event of misfortune to themselves or those upon whom they are dependent.

The late war wrought great changes in the pecuniary and social condition of the people of this section of the country. The [illegible] weight of our disasters has fallen upon the white women of the South. It is not necessary here to point out how or why this is true. [illegible] the situation and meet its demands heroically and intelligently, else the condition of many of them will soon be that of the unfortunates of their sex in the densely populated sections and cities of the North and of Europe, whose untaught intellects and unskilled hands can only earn a scanty subsistence, and the privilege of lodging in miserable hovels and tenement houses.

Educated and wealthy, as well as uneducated and impoverished families, need the advantages of an industrial education. It is now important that every woman shall be skilled in one or more occupations that will afford a [illegible] in case of necessity.

The wife, whose husband's wealth [illegible] her a luxurious home, needs to be familiar with the details of the duties formerly entrusted to others, but which she cannot now have well performed without her own supervision and direction, except under the penalty of great discomfort and loss.

Her tenure of wealth being always precarious, she needs to have a care for the future of herself and daughters in the event that they are by misfortune thrown upon their own exertions for a support.

And then think of the impovished women and girls, unskilled in any industrial pursuit whereby they may earn an honest livelihood! How important that they be afforded an opportunity to learn some one or more of the many trades or callings suited to their sex that would afford them an honest livelihood.

The investigations of philanthropists in the Northern cities have developed the fact that out of the many impoverished women who seek employment as seamstresses, clerks, saleswomen, school teachers, etc., etc., a very few are found sufficiently skilled to earn first-class wages.

This is due, not to their real or supposed inferiority to men in capacity to learn, but rather to the fact that females, in their rearing, are required to learn a little of numerous pursuits, and are hence rarely well skilled in any one of them.

Men generally confine themselves to one calling, and few of them know even a little about any other. Hence their superior skill in many callings in which women fail if they attempt to pursue them.

Does not common sense indicate that besides the schools in which the mind, morals and manners are trained, there are needed schools in which females may be specifically trained in some one or more of the industrial pursuits suited to their sex and the tastes and talents of each pupil?

Were these hints seriously considered, and if intelligent, earnest and benevolent men and women would follow them up, much practical good could be effected by the establishment of industrial schools for females every where in the South. There is immediate need for one or more right now in Atlanta, where there are, as the lady referred to asserts, many worthy girls struggling for an honest livelihood, who are painfully aware of their want of skill in any industrious pursuit, and would gladly enter such a school for instructions.

☞ We regret that the well-written communication of "H.," concerning the commencement exercises of the Southern Masonic Female College, has been crowded out by a press of matter, until it has lost its interest. But we cannot forbear giving the following:

The President did not announce a Baccalaureate address on the programmes; and, indeed, stated that circumstances had induced him to forego the pleasure of addressing the senior class in a set speech. Many of those who have heard the fine addresses he has delivered, on former similar occasions, were much disappointed; but there was no necessity for it, since a good Baccalaureate, comprised in a short extemporaneous speech, was set before them after all. The tears flowing down the cheeks of a number of the young ladies, and the tearful eyes of the gray-bearded President himself, testified to the unexampled, almost parental affection and filial obedience existing, within the writer's knowledge, between the President and Faculty on the one hand, and the young ladies on the other. Instruction at the Southern Masonic Female College is emphatically a labor of love.

Our Washington Letter.

Special Correspondence for The Constitution.]

WASHINGTON, June 29, 1870.

With the thermometer indicating a tropical heat out of doors, and a black-hole atmosphere within the illy-ventilated halls of Congress, it is somewhat surprising that anything should have been accomplished in the way of legislation. Yet, the Senate, by holding night sessions, has managed to pass the Texas Pacific Railway bill, though in rather a questionable shape; has virtually put an end to the San Domingo treaty, and tinkered the bill to reduce internal taxation admirably.

The House has disposed of the miscellaneous Appropriation bill, and some other measures of minor importance.

GENERAL P. M. B. YOUNG.

I notice that some of the Georgia papers are taking the late representative from your district to task for various alleged sins of a political nature. These changes may be summed up as follows:

1. That General Young is working in conjunction with certain carpet-baggers to obtain seats in the Forty-first Congress.

2. That General Young holds from Governor Bullock a commission for the Forty-first Congress.

3. That General Young drew two months pay before being stopped by the Committee on Elections.

Now, your correspondent, having cast his Argus-eyes about, and having moreover kept watch and ward over all representatives and so-called representatives of Georgia at the capital, is able to meet these charges against General Young in a manner that will no doubt prove satisfactory to the friends of that gentleman.

1. The statement that Gen. Young is taking any means whatever to secure a seat in the Forty-first Congress is simply and entirely false.

2. That General Young now holds, or has ever held, a commission from Governor Bullock for the Forty-first Congress, or that any such commission was ever tendered him, is equally false and without foundation.

3. The statement that General Young drew $800, before the Committee on Elections stopped him, is also untrue.

The origin of this report is no doubt as follows: More than a year ago the committee directed one of its members to report a resolution to the House, upon which it had unanimously agreed, directing the Clerk of the House of Representatives to pay to each member of the Georgia delegation eight hundred dollars. This resolution was considered by the House and passed without a dissenting voice. The money did not come from the pay fund of the House, nor was it paid by the pay officer of that body, but was drawn from the Contingent Fund by the unanimous order of the House. By all the laws and precedents on the subject, there is yet due General Young $4,000 for pay in the Fortieth Congress, and which he may honorably claim.

It is well known to every Democrat and many Republicans of the House of Representatives, that from the day General Young arrived here in March, to the present time, he has been, and is now, urging an amendment to the Georgia bill, which proposes to put that State under a military Governor, making the State Government purely military until the election provided [for] in November, when the State shall [hold] elections for every office in the gift of the people. It would seem to most persons [illegible] a measure which would deprive [the people] of all chances of representation [illegible]

WASHINGTON, July 2.—Revenue to-day, $1,167,088.

Congressional.

In the House, the Senate's request for a new Committee of Conference on the Indian appropriation bill gave rise to an animated debate, in which it was contended that the House is not bound to carry out treaties made by the Indian peace commission in 1867. A new Committee of Conference was ordered.

The House refused to allow the counsel for Pat Wood to be heard at the bar of the House.

The Louisiana contested election case, Darrall against Bailey, was decided in favor of Darrall, Republican.

A motion to reconsider was entered, and will come up next Wednesday.

A bill was passed, declaring forfeited to the United States, certain lands granted to the Opelousas and Great Western Railroad.

Mr. Sawyer addressed the Senate in favor of a bill for the sale of lands in the sea islands of Beaufort county, South Carolina.

The Naturalization bill was considered, as amended by Sumner, and adopted, striking the word white from the naturalization laws.

The substitute of the Senate committee for the House bill was rejected.

The amendment offered by Williams, excluding Chinese from the privilege of naturalization, was debated by Stewart.

Pending action, adjourned at seven.

FOREIGN.

PARIS, July 2.—The Figarro was to-day prosecuted for a violation of the press law, the particular offense being the publication of a false anecdote of the Emperor and the late Earl Clarendon.

Washburne, the American minister has gone to the Warman watering places. Col. Hoffman, secretary of the legation, will act during his absence.

Archbishop of Paris has returned from Rome.

Prevost Paradol, new minister to Washington, sailed from Havre to-day for New York.

The committee of the Corps Legislatif to whom the matter was referred have required a modification of the insulting tone of the petition of the Orleans princes, before considering the subject.

LISBON, July 2.—Senor Figanare, recently appointed, by the government of Auguez, Minister to Washington, has been transferred to St. Petersburg.

ROME, July 2.—It is said that at least two-thirds of the Fathers in the Ecumenical Council will depart for home as soon as the infallibility dogma is offially promulgated.

VIENNA, July 2.—Advices have been received of a sharp earthquake in Greece yesterday. An island in the neighborhood suddenly disappeared at the time of the shock.

WARSAW, July 2.—The Emperor of Russia and suite have arrived here. A grand official demonstration will be made in honor of the event.

NIGHT DISPATCHES.

Washington News.

WASHINGTON, July 2.—The Executive Departments of the Government will be closed next Monday.

The President and his family leave here about the 18th instant for Long Branch. They are to remain during the season.

The semi-annual interest on the 5-20 bonds, now due, amounts to $28,000,000 in coin.

According to accounts received at the War Department, there is a probability of a general Indian war in the West, where outrages and depredations are of daily occurrence, especially on the line of the Pacific Railroad. All the available troops in this vicinity were dispatched this afternoon to General Sheridan.

FOREIGN.

HAVANA, July 2.—A meeting of planters and wealthy slave owners was held at the Governor General's palace last night. The parties were unanimous in their approval of the abolition of slavery by the Cortes, and of the mother country, and in their disposition to obey the laws, but requested that they may be consulted as to the manner of carrying out the law, so as to prevent the negroes from becoming vagrants, and also to organize a system by which agricultural interests may be maintained.

Slaves will remain with their present masters, but will be placed under contract, and will receive the same pay for their services as is paid to other freedmen.

There are about the usual numbers of cholera cases daily—seven deaths yesterday.

There is no perceptible increase in deaths from vomit.

Small pox quite prevalent.

LIVERPOOL, July 2.—The tide of emigration continues unabated. Eighteen thousand emigrants left this port during the month of June, for various American ports. Nine-tenths went to New York.

LONDON, July 2.—The Spectator of today criticises the Indian policy of the United States, and anticipates an immediate Indian war, which will result in the extermination of the race.

PARIS, July 2.—The discussion of the petition of the Orleans princes, for the restoration of their rights, was opened in the Corps Legislatif to-day.

LONDON, July 2.—A coroner's inquest to-day developed the fact that Mrs. Water, the notorious baby farmer, has been guilty of poisoning and starving several infants left in her charge.

Religious.

The measure of a Christian's power is his piety.

Satan lets the weed alone. He tries only to corrupt, and blast, and wither the flower.

The Rev. Mr. Frethingham, the noted Unitarian minister, of New York, in a sermon on free religion, affirmed that free religion was not obtained by making churches free; it was a religion free from dogmas, rites and forms.

In addition to other comforts of a home, Mr. Pullman has attached to his palace cars, on the Pacific railroad, a permanent chaplain. This clerical officer is an Episcopalian, and his services are as high church as circumstances and the appearance of *acolytes* will admit.

The recent changes in the Episcopal House of Bishops in the United States, owing to death and the creation of two or three new dioceses, will, it is supposed, increase the strength of the high church element.

There is a remarkable community living in Iowa, who call themselves the "Christian Brothers." They have a monastery upon one of the highest Mississippi bluffs, approached by a rough and rocky road. They wear the garb which is the identical pattern of that worn by St. Bernard in the sixth century. Not a change has been made during the twelve centuries that have elapsed since the death of that saint. A great deal of time is devoted to religious exercises. From two o'clock in the morning until daylight they repair to the chapel, and devote the balance of the time until daylight to prayer. They are exceedingly abstemious in their food, and observe all the rules of the society rigidly. Some of them have been there twenty and a few about thirty years. Their religious belief is Roman Catholic, and they are never allowed to marry. Women are never allowed in their places of worship under any circumstances. After a certain time they take upon themselves a vow never to speak aloud, and a number have kept that vow for twenty years. Such is the humble seclusion of this community.

Before all schools, however, there is an important social institution with which the school is simply co-operative. I refer to the family where the child is under a tutelage [illegible] determines his future life, and which, in spite of schools, religions or otherwise, makes [illegible] him. Character is but the development [illegible] upon the seed in early years [illegible] through life of the g[illegible] of childhood [illegible]

[illegible]

the Sunday-school, which is meant to supplement and not to supplant home-training, would not find itself so frequently "out of joint." Hugh Miller writes: "In looking abroad on the great history of life, I feel my grasp of a doctrine taught me at my mother's knee tightening instead of relaxing. 'The decrees of God are his eternal purpose,' etc., I was told. And what I was told early I still believe."

A WHOLESOME FIELD DRINK.—The excessive use of cold water during the sweltering heat of summer often results in serious and alarming illness. It is therefore advisable that some beverage should be substituted, of which those oppressed can partake with safety. For this purpose I am aware of no better or more refreshing drink than the following: Take of the best white Jamaica ginger root, carefully bruised, two ounces; cream of tartar, one ounce; water, six quarts—to be boiled for about five minutes, and then strained; to the strained liquor add one pound of sugar, and again place it over the fire; keep it well stirred until the sugar is perfectly dissolved, and then pour it into an earthern vessel, in which you have previously put two drachms of tartaric acid and the rind of a lemon, and let it remain until the heat is reduced to a lukewarm temperature; then add a tablespoonful of yeast, stirring them all well together, and bottle for use. The corks must be well secured. The drink will be in high perfection in four or five days. This is a very refreshing and wholesome beverage, and one which may be largely partaken of without any unpleasant results, even in the hottest weather.—*Cor. Germantown Telegraph.*

Crops in Jasper County.

Editors Constitution: I send you a statement of the condition of the farmer and crops of Jasper county. I have traveled over the larger portion of the county recently, and find the farmers rejoicing over their good wheat crops. Some of them have had their wheat thresbed. The yield in some cases was as high as forty-five bushels to the acre; thirty and thirty-five bushels to the acre is a general thing. The farmers have reduced their wheat farms down to small ones; they find it requires less labor and less expense, and is more profitable. They are also reducing their corn and cotton farms. Corn and cotton are somewhat backward, though the recent showers are enabling them to look very promising at present.

The farmers are in high spirits, hoping to be blessed with good crop, so they can pay out of debt once more for the fertilizers. They expect to abandon the use of fertilizers, and turn their attention to something more profitable than cotton. They acknowledge that they make a large amount of money, though they do not return any of it for family necessaries. It goes to take up mortgages for bacon, cotton and fertilizers. Experienced farmers say that there is no money in fertilizers at the present prices, and haul it twenty-five or thirty miles, and haul their cotton the same distance, and sell it at the present prices, then pay the present prices for bacon, corn, hay, etc., and haul that twenty-five or thirty miles, and perhaps feed their horses with a good feed of corn, and one of two take the colic and dies. Raise your own provisions.

OBITUARY.

DIED, June [illegible], at LaGrange Georgia, STEPHEN ELLIOTT, youngest child of C. H. C. and L. A. Willingham, aged one year eight months and twenty-four days.

Made in baptism a member of Christ, the child of God, and an inheritor of the kingdom of Heaven "Little Stevie" has been taken from "this present wicked world" and carried by the angels to be "ever with the Lord." "Of such," said the Saviour, "is the kingdom of heaven."

It is hard to give up a much-loved child. Around this little one, parental love had entwined itself with unusual fondness. The name he bore—STEPHEN ELLIOTT—a name "like a precious ointment poured forth" [illegible] It was the hope of the parents, that their little one might be called of God to minister at His altar. But "His thoughts are not as our thoughts."

May those "who weep be as though they wept not," for "it is well with the child."

UNIVERSAL LIFE INS. CO.

—NEW YORK—

The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the *Stock* system of Life Insurance, as opposed to the *Mutual*, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a *portion* of the excessive and unnecessary premium charged in the first instance.

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL, the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—difference, *immediately secured*, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty-five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one-third* per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an *annual cash dividend of thirty-three and one-third per cent. payable in advance*, or to a dividend of *forty-five per cent.* payable at the end of five years.

By the *Stock* plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are *returned* in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION OF PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in effect, equivalent to a *dividend* of 33⅓ per cent. A clause is inserted in the policies issued by the "Universal," in which these results are *distinctly specified and guaranteed.*

WALTHAM

WATCHES!

THE extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks:

American Watch Co............Waltham, Mass.

Amn Watch Co............Waltham, Mass.

American Watch Co., Crescent St.............Waltham, Mass.

Appleton, Tracy & Co............Waltham, Mass.

Waltham Watch Co............Waltham, Mass.

P. S. Bartlett............Waltham, Mass.

Wm. Ellery............Waltham, Mass.

Home Watch Co............Boston, Mass.

For sale at retail by all respectable dealers.

A descriptive circular giving much useful information sent to any address on application.

No watches retailed by the Company.

Diseases of the Stomach,

Nervousness, Jaundice,

Billious Complaints,

Costiveness, Cramps,

Flatulency, Griping Pains,

Heartburn, Liver Complaint,

Loss of Appetite,

Lowness of Spirits or Melancholy,

Pains in the Side or Back,

Sick and Nervous Headache,

Etc., Etc.

All the virtues of the true CALISAYA BARK are to be found in the ARGYLE BITTERS, making them the best Appetizer and gentle Tonic in all cases of General Debility and Derangement of the Stomach and Digestive Organs, that it is possible to produce.

Being mild in effect and pleasant to the taste, they are especially recommended to delicate females as a gentle soothing and invigorating tonic.

The following important Certificate from Dr. I. L. CRAWCOUR, an eminent Chemist and Physician of this city, speaks so favorably of the Argyle Bitters, we deem it superfluous to add anything further:

51 CAMP STREET, NEW ORLEANS, September 1, 186[illegible].

Messrs. Wheelock, Finlay & Co.:

GENTLEMEN—I have carefully examined your Argyle Bitters, and from my knowledge of their ingredients can safely recommend them as a good and reliable tonic and as especially as a corrective of that morbid desire which so frequently afflicts those addicted to the use of ardent spirits. The chief ingredients being the best Calisaya Bark, renders them peculiarly fitted for the use of those residing in malarious districts, as they will not only act as a preventive against intermittent disease, but in a large number of cases may cure it when it has made its appearance.

FOR THE CURE OF

AGUE AND FEVER,

Chills and Fever.

The proprietor of this [illegible] justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, [illegible] standing. He refers [illegible] and Southwestern country [illegible] the truth of the assertion [illegible] will it fail to cure, if the directions are strictly followed and carried out. In [illegible] a single dose has been sufficient [illegible] whole families have been cured [illegible] with a perfect restoration of [illegible] It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide [Readers]:

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker County, Ga., June [illegible]

DR. JOHN BULL—Dear Sir: I have [illegible] given your "Worm Destroyer" several trials, and find it wonderfully efficacious. [illegible] in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some articles of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great many of the regular line M. D.'s, but I see no justice or good sense in discarding a remedy which we know to be efficient, simply because we are ignorant of its combination. For my part, I make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first and secured the sole right to such knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT, M. D.

[illegible] BARRACK'S, Mo., April [illegible]

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. [illegible] moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige

Capt. C. P. JOHNSON,

St. Louis, [Mo.]

P. S.—The following was written April [illegible] by Mrs. [Ann]ie Johnson, mother of Captain Johnson:

DR. [JOHN BULL]—Dear Sir: My husband, Dr. [illegible] Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I have his Sarsaparilla. [illegible] for ten years recommended it to many in New York, Ohio and [illegible] scrofulous sores and general debility [illegible] success has attended it. The cures [illegible] some cases of scrofula and fever sores [illegible] miraculous. I am very anxious for my son [illegible] again be cured. [illegible] resorting to your Sarsaparilla. THE Legislature meets on Wednesday next.

TO-MORROW being the Fourth of July the banks will be closed.

THE basement of Kimball's Opera House is being fitted up for the state Agricultural Society.

REV. CHARLES KENNEDY will preach at the Second Baptist Church this morning at the usual hour.

CALL at Lawshe & Haynes', and see four beautiful oil paintings, to be raffled off at $5 per chance.

REV. R. W. FULLER will preach at the First Baptist Church to-day, (Sunday) at 10 o'clock, A. M., and 8½ o'clock, P. M.

THE "Patron of Husbandry," in Atlanta, does not seem to get many members to join the society just now.

MESSRS. GOITSNOVEN & MANN, on Whitehall street, have, in large supply, fruits, melons, etc., of all kinds. If you want something nice, call and see them.

W. D. LUCKIE has become a partner of O. H. Jones in the livery and sale stable business, and the firm name will be O. H. Jones & Co. The stand is a lucky one, any way, for business.

THE Atlanta Canal and Water Works Company was organized early in April last. Dr. J. G. Westmoreland is President; Colonel James Atkins, Secretary, and E. W. Holland, Treasurer.

TALLULAH ENGINE HOUSE was sold at auction yesterday to A. H. Coon for $149. The new building will be commenced at once. It will be two stories high and ornamented with a tower.

THE firm of Hannon, Johnston & Clanton, Real Estate Agents, terminus Texas Central Railroad, is a strong one. They are well calculated to do a good business generally, as they all have won the title of General by heroic deeds. Now they propose to deal in deeds of another character.

THE resolution of Council to take up persons begging on the streets, and send them to the Alms House, is a good one. Parties found begging on the street from other counties will be sent back home. But we think a House of Correction for some of the juveniles will be more beneficial.

MESSRS. JOHN C. PECK and J. G. THOWER have purchased the Gate City Lightning Rod Company's works, and will conduct the manufacture of Chadwick & Foot's patent, on Marietta street. They are just the boys to make a good thing of it, for they possess the reliability and vim necessary.

WE are gratified to know that Mr. A. C. Wyly has returned to Atlanta, and formed a partnership with B. F. Wyly, and will devote his attention to the business of the firm here. He is an experienced and reliable merchant, and one of great business tact and energy.

ALICE JONES, a 15th amendment, was sentenced, yesterday by Justice Spencer, to pay a fine of one hundred dollars, or go to the chaingang for six months, for taking jewelry, money and wearing apparel from the residence of George Kiessers. Colonel Byington, for the State, W. A. Tigner and T. P. Westmoreland for the defense.

MR. H. F. EMERY, for the accommodation of the public, will be open to-day from 6 to 8½ o'clock, A. M.; from 12 to 2 o'clock, P. M., and from 5 to 7 P. M. He keeps a constant supply of fresh pond crystal lake ice on hand at 2½ cents by the hundred pounds and over, and 3 cents per pound at retail. Parties ought to keep cool at this rate.

A GOOD APPOINTMENT.—We are gratified to learn of the appointment of our young friend, Mr. James B. Shaw, to the position of money clerk in the Express office. We congratulate the company on securing the services of so competent and genial a gentleman. May he hold it with credit to himself and profit to the company, as we are satisfied he will.

THE NEW HOTEL.—Most of the State papers have published that Mr. Kimball offers a premium for a name for his new hotel. This we believe to be incorrect. Mr. Kimball does his own thinking and naming. When the proper time comes, the name, no doubt, will be published, and we have reason to believe Mr. K.'s will be one of his own make.

MR. B. F. Abbott made his debut, on resuming the legal profession yesterday at Justice [illegible]'s court, in defending one of the weaker sex, charged with a heinous offense, and succeeded, in connection with Colonel W. H. Hulsey, in acquitting her over the able speech of S. S. Fears, who appeared for the State. The erratic youth, charged with being her accomplice, was found guilty the day previous, and charged $50 or chaingang for four months, and he went to jail.

LAWSHE & HAYNES.—One of the oldest and best established firms in our city is that of Lawshe & Haynes. Their stock of jewelry, watches, clocks, etc., is complete. Their Er Lawshe watches, which were manufactured for them in Switzerland, are the cheapest, prettiest and best watches we have ever examined. They imported them direct. Messrs. Lawshe & Haynes have skillful workmen and guarantee all repairing. See their card in the advertising columns.

THAT savage dog and his master, who, some time since, had a terrific fight at Newnan, in which the latter was victor, have been well advertised. The story of the combat has almost gone the rounds of newspaperdom, and is yet traveling. Lucky it was that the dog did not attack a less [illegible] individual. For what right has a man to keep such an untamed brute. Pity it is that some of the ill-bred and ill-mannered dogs about Atlanta, that show their raising by jumping on fences or flying out of gates, and alarming unoffending passers-by, would turn upon their owners.

THE balloon ascension yesterday afternoon, attracted a huge concourse. Every window, house top and lumber pile in the vicinity of Loyd street was dotted with people, anxious to see the balloon "go up." The windows of the Georgia Railroad depot was radiant with the beauty and grace of the city, assembled there to witness the performances. The balloon was undergoing inflation, by hot air, when it suddenly collapsed and came down with two rents in the side. All were sadly disappointed. We understand that another attempt will be made on Monday, the 4th, at [illegible] o'clock P. M., when the "Hercules," with the [illegible] boys and their wives, will take a pleasure trip up among the clouds.

"BLOOM AND BRIER."—We are indebted to M. Lynch & Co. for a copy of "Bloom and Brier," published by Claxton, Remsen & Haffelfinger, of Philadelphia. The work is a romance descriptive of life in ante bellum times, from the pen of William Falconer, of Montgomery county, Alabama. It is dedicated to Hon. Henry W. Hilliard, of Augusta. The preface concludes thus: "Change, great organic changes are certainly ahead. Your own men will overthrow you; their apparent wealth is not legitimate, it is the price of blood, the representative [illegible] patricidal blood, and is the price of [illegible] wrongfully carried to their credit [illegible] ledgers. Planted in corruption, it [illegible] in dragon's teeth, and will yet tear you [illegible]." The work is handsomely gotten up.

THE closing exercises of Miss Latimer's school took place on Friday evening. Prizes for [illegible] lessons and lady-like deportment were [awarded] to Misses Ella Collier, Purilla Reed, and [illegible]. Prize for perfect lessons to Master [illegible] South. Rewards for close application were given to Misses Anna Holmes, [illegible], Kattie Randall, Camilla Reed, and [illegible]. Worthy of honorary mention for [illegible] progress and thorough comprehension: [illegible] Florence Mitchell, Isora Morris, Cora Morris, Bettie Gramling, Nannie Thompson, Lizzie [illegible], Maggie Young, Sarah England, Jodie [illegible], [illegible] Mills, Eva Brady, and [Mas]ters Willie Hoyt and Walter Venable. Prize for declamation was obtained by Master Walter Venable.

THE CONVENT SCHOOL EXHIBITION.—We have seldom witnessed an exhibition that reflected more honor upon the teachers, or gave greater satisfaction to parents, than the exhibition by the Convent School at DeGive's Opera House, on Friday evening. Notwithstanding the defective ventilation of the house, the large audience remained there over five hours. The vocal and instrumental music by the scholars gave evidence that they had been apt to learn of skilled teachers, and their performances gave unbounded satisfaction to all who listened to them. The dialogues were enacted with considerable effect, and brought out in full play much native talent. The dialogues were: "The School Committee," "The Gold Thimble," "The Secret," and "The Nine Sisters."

The prizes were presented by Rev. Father O'Reilly, with that benignant expression that wins and commands the esteem and reverence of children.

Crowns were conferred upon the following young ladies for excellence of conduct: Minnie Quinn, Emma Butts, Kate Gardiner, Belle Durham, Mary Gallnaid, Mary Small, Mary Farley, Jane Quinn, Sallie Taylor, Clara Malone, Gertrude Flynn, Minnie Flynn, Mary Sheehan, Hannah Sheahan and Kate Murphy.

The Sisters of Mercy are unostentatious and retired, yet, in the hearts of these little ones will be reared enduring monuments to their patience, love and painstaking in imparting instruction.

SUPREME COURT—*Evening Session*—ATLANTA, GA., July 2, 1870.—Argument was concluded in No. 1, Cherokee Circuit.

No. 2 is Selma, Rome and Dalton Railroad Company vs. N. P. Harbin. Motion to set aside judgment from Whitfield.

Wm. H. Dabney, Printup & Fouche, for plaintiff in error.

C. D. McCutchen, for defendant.

Pending the argument for defendant in error, Court adjourned till 10 o'clock, A. M., Tuesday next. Monday is consultation day as usual.

SOUTHERN DYE HOUSE.—Mr. A. E. Shulhafer, of this city, is agent for the Southern Dye House of Augusta. In antebellum times Dodge's Dye House was a popular institution, and we are pleased to see that, now that Dodge is dead, another one has been put into operation to supply a pressing need of the people. It is useless to dwell upon the economy of having garments dyed and renovated. We have been shown specimens of the dyeing of the Southern Dye House, which cannot be excelled anywhere. We hope that Messrs. Blascow & Berond may find it advantageous to locate a regular dyeing establishment here.

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&w6m

Did not succeed so well at first with the "Eureka," but am gradually getting at the idea of proper proportions of water and coffee. All who have tried the coffee think it a grand success, so far as the flavor and taste of the coffee is concerned. Will give it a fair trial.

THE LIFE SUSTAINING ORGANS.—The two organs which minister most directly to the support of the body, are the stomach and liver. In the former, the first process of digestion takes place, under the action of that powerful solvent, the gastric juice. Thence the food, converted into a pulp, passes into the duodenum, where it is subjected to the action of the bile or gall, flowing from the liver, and of the fluid generated by the pancreas, or sweetbread of the system. These secretions separate the nutritious portion from the rest, and it is then taken up by the absorbent vessels and conveyed into the channels of circulation in the form of venous blood, while the waste matter is discharged through the bowels. Unless all these processes are duly performed, disease of some sort is inevitable, and the best of all medicinal agents for preserving or restoring the tone and regulating the action of the three organs—the stomach, liver and intestines—by which the three-fold work is carried on, is Hostetter's Stomach Bitters. Indigestion is generally accompanied by constipation, and the gentle cathartic operation of the Bitters is no less important in cases of this kind than its tonic effect upon the stomach and the biliary gland. Beauty of person, as well as health, depends in no small degree upon the regularity of the excretive functions. A sallow complexion, a thick opaque coarse skin, a tainted breath, a rush of blood to the head, loss of memory, headache, and extreme mental depression, are the usual accompaniments of costiveness. A course of the Bitters will infallibly relieve, and finally banish these obnoxious symptoms, while invigorating the stomach and promoting healthy action in the liver. This genial vegetable stomachic and alterative, strikes at disease in its primary sources, the assimilating, secretive and expulsive organs, and the cures it effects are consequently thorough and complete.

SEASON, 1870.

MONTVALE SPRINGS,

Blount County, East Tennessee.

THIS favorite Summer Resort for the invalid and pleasure-seeker will be open for the reception of visitors, JUNE 1st, 1870.

The most marked beneficial results attending the use of these waters, in functional derangements of the Liver, Bowels, Kidneys and Skin, and the cure of Chronic Diseases, attest the Medical Properties of these Waters.

Situated at the base of the Chilhowee Mountains, it presents the strongest attractions to both the invalid and the pleasure seeker, no less on account of its pure invigorating atmosphere and the beauty of the surrounding scenery, than of the Restorative Powers of its waters.

Such provision has been made for the Comfort of visitors, that the Proprietor confidently promises satisfaction to his guests.

Daily Coaches, with mail and passengers, run between Maryville, the terminus of the Railroad from Knoxville, and the Springs, distant nine miles, over good roads.

Board per day $2 57; per week $16 00; per month, $60 00.

BARRETT'S

HAIR RESTORATIVE.

ALL AROUND THE WORLD! THE FIRST PREMIUM OF A SILVER MEDAL WAS AWARDED TO BARRETT'S HAIR RESTORATIVE By the N. H. State Agricultural Society, at its Fair, holden in Nashua, Sept. 20, 1860.

BARRETT'S Vegetable Hair Restorative Restores Gray Hair to its natural color. Promotes the growth of the Hair. Changes the roots to their original organic action. Eradicates Dandruff and Humors. Prevents Hair falling out. Is a Superior Dressing. It contains no injurious ingredients, and is the most popular and reliable article throughout the East, West, North and South.

This Preparation surpasses all others of its class as a Hair Renewer.
It is thorough in its action upon Gray or Faded Hair and its effect permanent.
It produces but one distinct shade, while others leave the hair in many varied colors.
It promotes growth when others fail to reproduce a single hair.
It does not crisp or dry the hair, but leaves it moist and glossy.
Ladies find it superior to any other as a Toilet Dressing.
The ingredients used in this Preparation are the very best that can be found, and are as harmless as water.

ROSADALIS!

THE Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

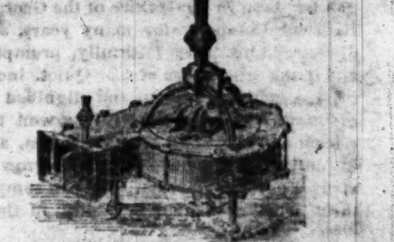

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and [illegible]

KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of [the] country

AS A GREAT AND GOOD MEDICINE!

And the Large Numbers of Testimonials

which are constantly being received from Physicians and persons *who have* BEEN CURED by its use, CONCLUSIVE PROOF OF its REMARKABLE VALUE.

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

KOSKOO!

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action.*

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

SWEET QUININE

IS A RECENT IMPROVEMENT.

Replaces the use of the Bitter Sulphate Quinine, with which all are familiar.

Dose for dose, it is

WARRANTED

Fully Equal in Every Way to Bitter Quinine,

And like it, is the one

Great, Positive, and Unfailing CURE

FOR ALL DISEASES OF MALARIOUS ORIGIN.

Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague.

And the long train of disorders following these when neglected.

SWEET QUININE

is made solely from PERUVIAN BARK (so is Bitter Quinine,) therefore is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well as a cure for malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE

is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.
